

# *Soul Retrieval for Yourself and Others*

A weekend of advanced practice in healing the soul

April 28-29, 2018

9:00 am - 4:00 pm

Missoula, MT

At the heart of shamanic healing lies the practice of finding lost essences of a person's soul and bringing these essences back with all their gifts and energies that help us thrive. The soul is at the very heart of our being, vitality, and resilience in life. In ancient times, it was believed that the loss of a person's soul was the cause of death. This belief gave rise to powerful spirit-led ceremonies which literally made the difference between life and death.

Today, the same practices can be effectively used to support physical, mental, or emotional healing, build personal power, restore vitality, and reconnect us with our dreams, life purpose, and sense of self.

This workshop is an in-depth training in shamanic soul retrieval, including:

- Causes and impacts of soul loss
- A look at soul thieves
- Detailed practice in soul retrieval for another person
- The opportunity to experience soul retrieval
- Safety, cautions, and ethical practice of soul retrieval for another
- The power of words and their particular importance in this work
- Practices for reconnecting, strengthening, and honoring our own soul
- The importance of our soul for health, well-being, and our ability to thrive in the world
- Serious and playful interaction with the compassionate, healing spirits
